## How to Download Videos in MP4 Format

**Kaltura Capture Mediaspace** defaults to downloading your videos in a WebM file format. If you prefer to download the video in an MP4 format, please follow the instructions below.

1. Log onto [mediaspace.ccsu.edu](https://mediaspace.ccsu.edu)
2. To navigate to your video, click on your **Username** and from the menu select **My Media**. Click on the video you are interested in downloading (Figure 1).

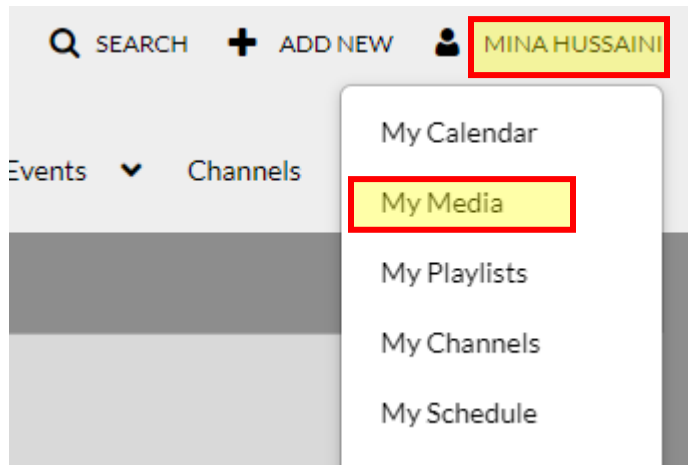

Figure 1

3. Click **Actions** and from the menu select **Edit** (Figure 2).
