Description: The objective of the course is to provide the student with an understanding of the concepts and techniques of statistical methods used in businesses today. The development of analytic skills in inferential, descriptive and exploratory statistics is enhanced by use of Microsoft Office Excel. Topics include frequency distributions, graphical presentations, measures of relative position, measures of central tendency and variability, probability distributions including binomial and normal, confidence intervals and introduction to hypothesis testing. All examples come from real-life business situations and applications of statistics to business problem-solving.

Course Requirements:

- Attend and participate in class sessions, complete all reading and homework assignments, take quizzes and tests as scheduled. For this course, you are expected to put in at least 3 hours of outside work per class session (or 6 hours per week). If you cannot make this commitment, you should not take this course at this time.
- You are responsible for all assignments and materials distributed during the class sessions whether you are in attendance or not.
- The homework assignments will be posted on Blackboard; you should work all of them and be prepared to discuss them or ask questions.
- Technology: We will use Excel for all homework, assignments and tests. If you do not have Excel, please contact the CCSU Help desks for information on free downloads. Excel training is included in the course.
- You must take the final examination at the time specified: Mon., 12/13/21 from 8-10 AM

University Policies:

1. Please contact me privately to discuss your specific needs if you believe you need course accommodations based on the impact of a disability, medical condition, or if you have emergency medical information to share. *If you are a student with a documented disability, and would like to request academic accommodations, you are encouraged to contact Student Disability Services (SDS) at 860-832-1952, or email disabilityservices@ccsu.edu. Please visit the SDS website at <http://www.ccsu.edu/sds/> to download an Intake form and documentation requirements. Temporary impairments may also qualify for accommodations. Central Connecticut State University provides reasonable accommodations in accordance with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act for students with documented disabilities on an individualized basis*
2. **Last day to withdraw from this course without approval is 11/17/21.** After that, withdrawals are allowed only under extenuating circumstances and require approval of the course instructor, the department chair, and the dean of School of Engineering, Science & Technology.
3. All students are expected to demonstrate integrity in the completion of their coursework. Academic integrity means doing one's own work and giving proper credit to the work and ideas of others. It is the responsibility of each student to become familiar with what constitutes academic dishonesty and plagiarism and to avoid all forms of cheating and plagiarism. **Students who cheat/engage in plagiarism and other forms of academic misconduct will face academic and possibly disciplinary consequences. Academic sanctions can range from a reduced grade for the assignment to a failing grade for the course. From a disciplinary standpoint, an Academic Misconduct Report may be filed, and a Faculty Hearing Board may impose sanctions such as probation, suspension or expulsion.** For further information on academic misconduct and its consequences, please consult the Student Code of Conduct (<http://www.ccsu.edu/StudentConduct/codeofconduct.asp>) and the Academic Misconduct Policy (<http://www.ccsu.edu/AcademicIntegrity/>).
