MATH 102 - Applied Algebra
Fall 2020
Section 1, TR 1:40 pm – 2:55 pm, HB 410

Prerequisite: MATH 099 (C- or higher), or MATH 102 combo (D-, D, D+), or placement exam

This is a three credit-hour course. It carries 3 credits towards graduation that also count towards Skill Area II (General Education requirement).

MATH 102, Applied Algebra, is designed to strengthen basic algebraic reasoning skills but does not provide adequate preparation for pre-calculus. If your intended major requires MATH 116 or MATH 119, you will need to take MATH 103 next. It is a pre-requisite for those courses.

You must earn a B– or better in this course in order to satisfy the prerequisite for:
MATH 115, 124, 125,
CHEM 161.

You must earn a C– or better in this course in order to satisfy the prerequisite for any other course with a MATH 102 prerequisite including but not limited to:
MATH 105, 106, 110, 113, 123
STAT 104, 200, 215.

A final grade of D–, D, or D+ in MATH 102 earns you 3 Skill Area II credits, but will not satisfy prerequisite requirements for any course with a MATH 102 prerequisite.

The major goals of this course are:
- To strengthen a growth mindset and flexible thinking in math and problem solving.
- To achieve a deeper understanding of numbers and operations.
- To understand and apply mental math strategies for estimating and calculating without a calculator.
- To understand, analyze, and create models for algebraic reasoning and problem solving.
- To express relationships among quantities in symbolic algebra.
- To reason and problem-solve with proportions and percentages using models and symbolic algebra.
- To comprehend, use, and create geometry formulas for measures of simple or composite figures.
- To evaluate and apply appropriate units of measure for different types of quantities.
- To gain an appreciation for the role variables play in constructing mathematical models.
- To create tables, graphs, and equations to model mathematical situations.
- To evaluate mathematical models and determine valid domain and range values.
- To appreciate and analyze applications of algebra to a wide variety of real-world situations.
Instructor: Dr. Andre Freeman
Email address: a.freeman@ccsu.edu
Office hours: Mondays, 4:45 p.m. – 5:45 p.m., Tuesdays & Thursdays, 12:30 p.m. – 1:30 p.m., and by appointment. Location MS 211

Course Requirements

You are required to:
Order the workbook(s) from the bookstore NOW.
There is no excuse for not having the workbook(s) on the first day of classes.
You must get a NEW workbook. The workbooks are for your new, written work. Your professor will be checking that your workbook is new.

Have access to a computer having the following minimum technological capabilities:

- A strong, reliable Internet connection
- Google Chrome browser
- Webcam and Microphone
- Scanner - Adobe Scan App on a cellphone will suffice
- Cisco Webex Extension
- Proctorio Chrome Extension
- Calculator - NON-graphing is fine but it must have logarithms (LOG/LN keys)

IMPORTANT NOTES:

- All exams will be given on campus during the normally scheduled class time. There will be NO ONLINE EXAMS.
- In the unlikely case that all classes must be moved online, exams will be given remotely and proctored with the Proctorio Extension for Chrome. Therefore, you must have the technology required to use it. (See above.)
- All students will be required to take a Diagnostic Test in the first weeks of class using Proctorio. Completion will count for your participation, but the score will not count towards your grade.

For technology issues contact https://www.ccsu.edu/it/

For issues with Proctorio Extension contact https://proctorio.com/support

The technology requirements will be tested using a Diagnostic Exam that will be setup before classes begin.
Course Grading

To pass this course with a grade of C- or higher, you must satisfy ALL of the following:

- pass every online homework quiz with 60% or higher,
- pass the final exam with 60% or higher,
- earn an overall course average of 70% or higher.

Minimum Course Average Required:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>A</th>
<th>A−</th>
<th>B+</th>
<th>B</th>
<th>B−</th>
<th>C+</th>
<th>C−</th>
<th>D+</th>
<th>D</th>
<th>D−</th>
<th>F</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum %</td>
<td>93</td>
<td>90</td>
<td>87</td>
<td>83</td>
<td>80</td>
<td>77</td>
<td>73</td>
<td>70</td>
<td>67</td>
<td>63</td>
<td>60</td>
</tr>
</tbody>
</table>

**NOTE 1:** If one of your homework quizzes or your final exam score is below 60%, then the highest final grade you can earn is D+, regardless of the overall course average.

**HOMEWORK**
This weighs 20% of the final grade and consists of online homework quizzes and may also include written assignments/quizzes, class participation, etc. Each online homework quiz has a due date and a time limit. As long as the online homework quiz is attempted before the due date, you are allowed to reattempt it after the due date to improve your grade.

**EXAMS**
There will be 4 online exams during the semester, each worth 12.5%.

**FINAL EXAM**
This exam is scheduled online during the university exam time and counts for 30% of the final grade.

**NOTE 1:** Cheating is a serious offense that may result in your removal from the university. All instances of academic misconduct will be reported to the Office of Student Conduct. All exams will be proctored by Proctorio.

**NOTE 2:** You are NOT allowed to reproduce or repost exams or other teaching materials!

**MAKEUP POLICY**

There are NO makeups and NO extra credit to improve an exam grade or the course average in general. If you miss an exam for any reason, there is NO makeup. If an exam is missed during the semester, the final exam will be used to replace the grade only ONCE.
Here is the university policy for incomplete work:

"If circumstances beyond the student’s control prevented the student from completing certain work or caused the student to miss the final exam, a faculty member MAY issue a final grade of Incomplete. The INC grade will change to an F grade eight weeks into the following semester for undergraduates and after one year for Graduate students." Students must provide proof of extenuating circumstances beyond their control (hospitalization for example) in order to ask for an Incomplete.

COURSE CALENDAR

Classes meet at 1:40 pm every TR in Henry Barnard Hall, Room 410

Last day for full-time students to withdraw from university and get 100% refund August 25.

Classes begin on August 26

Last day for part-time students to drop course and get 100% refund September 1

Last day to drop without a "W" September 15

Exam 1 on Tuesday, September 21

Exam 2 on Tuesday, October 19

Exam 3 on Tuesday, November 9

Last day to withdraw without permission on Wednesday, November 17

Exam 4 on Thursday, December 2

Last day of classes on December 7

Final Exam – To Be Confirmed

Course Expectations:

- Attend and participate in every class, and be on time.
- Come to class prepared with your workbook, notebook, folder, calculator, and pencils/pens. Bring specific questions!
- Turn phones off and put them away. They should be out of sight and mind (not in your lap/pocket!) so you can focus on class.
• Watch all videos carefully and take notes - you'll likely have to review parts of them more than once to learn deeply.
• Make repeated attempts on all homework assignments; take quizzes and tests as scheduled.
• Take responsibility - complete all your work and keep to a schedule so that you do not fall behind.
• Put in at least 10 hours every week outside of class to watch videos, do homework and to study. This is a full course in only 5 weeks - be prepared to work.
• If you are having trouble with the class, first ask yourself,
  “Am I putting in at least 20 hrs./wk.?”
  "What else can I do to understand the material on my own?"
  "What specific questions will I ask in class?"

Academic Integrity:

All students are expected to demonstrate integrity in the completion of their coursework. Academic integrity means doing one’s own work and giving proper credit to the work and ideas of others. It is the responsibility of each student to become familiar with what constitutes academic dishonesty and plagiarism and to avoid all forms of cheating and plagiarism. Students who engage in plagiarism and other forms of academic misconduct will face academic and possibly disciplinary consequences. Academic sanctions can range from a reduced grade for the assignment to a failing grade for the course. From a disciplinary standpoint, an Academic Misconduct Report may be filed and a Faculty Hearing Board may impose sanctions such as probation, suspension or expulsion. The Department of Mathematical Sciences rigorously enforces this policy. Don’t cheat; it’s not worth it.

For further information on academic misconduct and its consequences, please consult the Student Code of Conduct (http://www.ccsu.edu/StudentConduct/codeofconduct.asp) and the Academic Misconduct Policy (http://www.ccsu.edu/AcademicIntegrity/).

Student Behavior - Taken from the BOR/CSCU STUDENT CODE OF CONDUCT
https://web.ccsu.edu/studentconduct/files/Student%20Code%20of%20Conduct%201.15.15.pdf

All members of CSCU must at all times govern their social and academic interactions with tolerance and mutual respect...Because of the BOR’s and CSCU's commitment to principles of pluralism, mutual respect, and civility, certain activities are not acceptable on CSCU campuses.

Please be aware that any violations of this Code of Conduct will result in a report of misbehavior to the Office of Student Conduct. Severe violations can result in dismissal from CCSU.
