Content: This course is intended for students in the behavioral sciences. The prerequisite for this
course is MATH 101/102/103 or scoring well enough on the MPE to be exempt from
MATH 101/102/103. Generally, this course covers Chapters 1-8 and 10 in the text,
although some sections will be skipped.

Homework: Problems will be assigned regularly from the text. These will not be collected for grading.

Assessments: Seven quizzes, two exams, and Final Exam. Quizzes (Feb. 11th, Feb. 18th, Feb. 25th, Mar.
25th, April 1st, April 22nd, May 4th) and exams (Mar. 4th and April 8th) will be given in
Blackboard Learn during the scheduled class time for this course. The Final Exam
will be given as scheduled by the University during finals week. All examinations are
intended to be closed book; formula sheet allowed; calculators necessary.
No make-ups on quizzes or exams.
Final Exam covers entire course.

Cheating: Cheating on any part of an exam will result in a zero on the entire paper.

Final Grade: Based on quizzes (all quizzes and SPSS projects combined count as one exam), two exams,
and the Final Exam. The Final Exam will count as 1½ exams. Attendance will not
influence the final grade except in extreme circumstances. An incomplete will be
given only to students with a passing grade who miss the Final Exam for reasons
beyond their control (documentation required).

University Policies: This class will adhere to the University’s Code of Conduct; Discrimination, Harassment,
and Sexual Misconduct policies; and special accommodations granted by Student
Disability Services.
## Basis for Final Grades
