Content: This course is intended for students in the behavioral sciences. The prerequisite is MATH 101/102/103 or scoring well enough on the MPE to be exempt from MATH 101/102/103. Generally, this course covers Chapters 1-8 and 10 in the text, although some sections will be skipped.

Homework: Problems will be assigned regularly from the text. These will not be collected for grading.

Examinations: Occasional quizzes, two exams, and Final Exam. Exams will be given on September 30th and November 4th. Final Exam will be given as scheduled by the University during Final Exam week. All examinations will be closed book; original formula sheet allowed; calculators necessary.
Make-up exams allowed only for medical reasons or other legitimate extenuating circumstances beyond the student's control. Documentation may be required. Under no circumstances will a make-up exam be given after the next class meeting.
Final Exam covers entire course.

Cheating: Cheating on any part of an exam will result in a zero on the entire paper.

Final Grade: Based on quizzes (all quizzes combined count as one exam), two exams, and the Final Exam. The Final Exam will count as 1½ exams. Attendance will not influence the final grade except in extreme circumstances. An incomplete will be given only to students with a passing grade who miss the Final Exam for reasons beyond their control (documentation required).

Electronic Devices: The use of electronic devices (other than calculators) is not permitted during class. Students with special needs will be granted an exception upon documentation. Cell phones MUST be silenced before the start of each class.

University Policies: This class will adhere to the University’s Code of Conduct; Discrimination, Harassment, and Sexual Misconduct policies; COVID-19 protocols; and special accommodations granted by Student Disability Services.
