How to: Randomize Test Answers

Steps to follow

1. Click the drop-down arrow next to the multiple-choice test you would like to randomize the test answers for and click *Edit the Test*.
2. For each question click the drop-down arrow and click *Edit*. On the next page make sure the option *Show Answers in Random Order* is checked off (Figure 1). Repeat this for each multiple-choice question you would like to be randomized.
